Our cars are pumping

Out toxic fumes

Why don't we try out something else
here in our school

So pay attention

To this here song

We need your help to move this plan
of ours along

We're gonna walk a lot more often

We're gonna use a lot less fuel

And we'll tell everyone about it

Till they know

So consider these suggestions

Park and stride, try to carpool

You can help us make a difference

If you try.
